

SKATE!

These sessions are typically crowded and the pace on the ice is fast. For these reasons, we do not permit the use of glider bars on Friday nights. If you are coming to skate for the first time, it would be far better for you to come to one of our many other sessions during the week to get used to skating, or try our wonderful group lesson program — a new series of lessons starts every 6 weeks.

Friday Nights at Ice World

Friday nights are very exciting at Ice World! We provide great ice for public skating, rental skates, music and a light show from 7:30 to 10:00 pm. Skaters of all ages are welcome. Everyone who wants to join in the fun pays \$8 admission and \$3 for rental skates. Parents are always welcome to come and watch at no charge. We have a “No In and Out” policy for guests under 18. Once they choose to leave, they are out for the night!

TIME

7:30-10pm

DROPOFF

If you would like to drop off your child, please keep a few things in mind:

- We have a No Loitering Policy — no one should be dropped off before our doors open at 7pm, and every child should be picked up by 10pm.
- Dismissal is done through the side Hockey Entrance. This allows parents to park their cars in our large side lot and see the door as their children are exiting. This also eliminates the traffic bottleneck that would occur if we dismissed through our front doors near such a small portion of our parking lot.
- Supervising your child is still your responsibility.

RULES

All Guests of Ice World must follow our rules, which are posted in the building. Violations may result in disciplinary action or possible arrest. Children who must be disciplined may have to leave the building, and will have to be picked up promptly by their parents.
